

Mr Martin Anderson

**School Council Committees:** None

**Member of School Council since:** November 2018

**Two Children in School**

**Professional/Business background:** Joint founder and Managing Director at Lemon Business Solutions Ltd, a 24/7 contact centre providing call centre services to businesses throughout the UK. Founded in 2003, Lemon has grown organically in to a multi-million pound turnover business with all services proudly provided from its offices in Stockton-on-Tees.

**Other interests:** I am a proud Teessider and a big Middlesbrough fan, following them home and away whenever I can. In recent years I have also taken an interest in basketball and I assist with Teesside Lions, the club my son has started to play for. I also enjoy a good box set and a good book (when I get chance to read!). I like to travel and experience new cultures and have been fortunate to see lots of interesting places around the world. I am very passionate about Lemon, our team, and the service that we provide.
