

Our plan for returning to school has been developed based on the Government's guidance. The essential measures include:

- a requirement that people who are ill stay at home
- robust hand and respiratory hygiene
- enhanced cleaning arrangements
- active engagement with NHS Test and Trace

Formal consideration must also be given to how to reduce contacts and maximise distancing between those in school wherever possible and minimise potential for contamination so far as is reasonably practicable. This can be achieved by:

- grouping children together
- avoiding contact between groups
- arranging classrooms with forward facing desks
- staff maintaining distance from pupils and other staff as much as possible.

Attendance

The government's expectation is that all children school return to school to minimise as far as possible the longer-term impact of the pandemic on their education, wellbeing and wider development.

Therefore, the usual rules on school attendance will apply, including:

- parents' duty to secure that their child attends regularly at school where the child is a registered pupil at school and they are of compulsory school age;
- schools' responsibilities to record attendance and follow up absence

Pupils who are shielding or self-isolating

We are expecting the majority of pupils to return to school. However:

- a small number of pupils will still be unable to attend in line with public health advice because they are self-isolating and have had symptoms or a positive test result themselves; or because they are a close contact of someone who has coronavirus (COVID-19)
- if rates of the disease rise in local areas, children (or family members) from that area, and that area only, will be advised to shield during the period where rates remain high and therefore they may be temporarily absent.
- some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school.

Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, we will offer the pupils access to a remote education. This will not be as extensive as the programme we previously had in place but we remain committed to supporting the education of the children. We will also explore fully the option of having the children 'appear' remotely in the classroom.

Pupils and families who are anxious about return to school

We fully understand that some parents and pupils will be anxious about school in September. Mr James and Mr Haywood are available to discuss these concerns and to elaborate on the steps being taken within school.

Coming into School

We wish to offer Breakfast Club for those parents who need to use it. However, if you can avoid sending your children into school early, please do so: this will help us to manage pupil numbers. Breakfast Club will be held in the Barn and the children will be seated in their year groups.

Pupils not requiring Breakfast Club should assemble at the entrances below. We will not be asking the children to line up formally but would ask you to socially distance until the children are called forward. Under the guidance, children should only socialise with children in their year group or family members.

Nursery	Main Entrance	8.30am
Reception	Main Entrance	8.35am
Year 1	Main Entrance	8.40am
Year 2	Side gate off the field	8.30am
Year 3	Side gate off the field	8.35am
Year 4	Vicarage entrance	8.30am
Year 5	Vicarage entrance	8.35am

Leaving School

Nursery	Main Entrance	3.15pm
Reception	Main Entrance	3.25pm
Year 1	Main Entrance	3.30pm
Year 2	Side gate off the field	3.25pm
Year 3	Side gate off the field	3.30pm
Year 4	Main Entrance	3.55pm
Year 5	Main Entrance	4pm

Parents are asked to collect the pupils expediently. Please socially distance whilst you wait for the children either on the playground, the playing field or the church car park.

Session 6

We will be encouraging as many pupils as possible to leave school at the end of the school day. However, we appreciate that some parents require a later departure time. Therefore, we will still be operating session 6. During this time, pupils will remain in their year group bubbles or be socially distanced.

Class Sizes

The maximum class size in the Junior School is 18 pupils. It is impossible to achieve the level of social distancing recommended before the summer holidays and this is no longer a requirement. Generally, children will be seated next to each other with all desks and children facing forwards. All teaching spaces will be ventilated.

Break Times

Each year group will be allocated a separate area of the school playing field. The children will be expected to remain together in their year group bubble.

Lunch

Hot meals will be provided on rotation and the children will have 'deli days' when it is not their turn to have a hot lunch. Hot meals will be eaten in the dining hall and packed lunches will be taken outside (if the weather is fine) or to their classrooms. As is currently the case, we will be operating two sittings to reduce the number of children around school.

Cleaning

There are cleaners in school throughout the day to clean high use areas on a regular basis, for example toilets, and to empty bins. High usage touch points, for example door handles, will also be cleaned frequently. All classroom teachers will be provided with antibacterial sprays and single use cloths. Any equipment used will be cleaned between year groups of children. Every classroom will be cleaned each evening using anti-bacterial spray. Should a teaching space be used by more than one year group – for example the ICT suite – the room will be cleaned between year groups.

Hand cleaning

The children will clean their hands on arrival, before and after eating, after sneezing or coughing and at the end of the day. We have also fitted a number of hand sanitisers at the entrances to our buildings which can be used when the children are not able to use soap and water. Each classroom will also have a hand sanitiser. The children will also be encouraged not to touch their mouth, eyes and nose.

Respiratory

Each classroom has paper tissues for the children to use which will be disposed of in a bin with a lid. The children will be told to 'catch it, bin it, kill it'.

Uniform

In line with the government guidance, the children will be wearing full uniform. On days when they have PE or games, the children should come to school in full PE kit (including tracksuit bottoms and hoody), This is so they do not need to change in school. We recommend the children bring a spare pair of socks should their socks become wet during their games lesson. The government guidance also states that uniforms do not need to be cleaned any more often than usual, nor do they need to be cleaned using methods which are different from normal.

Stationery

We will be providing stationery for children from the Nursery to Year 2. Children in Years 3-5 should bring their own. The children will not be allowed to borrow items from other pupils.

Books

The children will be issued with books in the usual way. Under the government guidance, bags may be brought into school and books may be taken home too. When returned, they will not be issued to other pupils until it is safe to do so.

Other Items in School

The children should limit the number of items they bring into school to those essential for their time here. This should include a water bottle, a personal hand-sanitiser (if they would like to do so) and their snack (in a disposable bag).

Use of PPE

Staff will not, as routine, be using PPE. They will only wear it when dealing with a child who becomes unwell with symptoms of coronavirus while in school.

The government guidance specifically states that face masks/coverings should not be used in school. Staff will be adhering to this (unless there is a specific reason; if this is the case, a face shield might be used).

Sick Children

The main symptoms of coronavirus are:

- a high temperature (hot to touch on your chest or back)
- a new, continuous cough (coughing a lot for more than an hour, or 3 or more coughing episodes in 24 hours). If you usually have a cough, it may be worse than usual.
- a loss or change to your sense of smell or taste.

Children who display any of these symptoms, or who are in a household when anyone displays any of these symptoms, must not come into school. Children who display symptoms whilst in school will be taken to an area away from the other children and their parents will be called.

If you are in any doubt, please do not send your child into school.

Arrangements for Teaching

The children will remain in the class groups for the majority of lessons. They will be only be allowed to socialise and play with other children in their class/year.

Curriculum

We will continue to run a full curriculum – no subjects have been removed. The order in which pupils study topics may have been amended to reflect the new arrangements for teaching but we will continue to offer a rich curriculum to the pupils.

Sport

We will finish the term as we had planned to start it. Please refer to Mrs Sweeney's previous letter, about sport for Years 3-5, which can be found [here](#).

Co-Curricular Clubs

Sadly, we will not be offering clubs with the initial difficulty being mixing year groups. We will continue to monitor this moving forward.

Contact with School

Please endeavour to contact the Junior School via telephone and teachers via email. If you need to come into school personally, please ensure there is only one adult in reception at one time and, if possible, contact the school in advance.
